

Geology (1998 Geological Map of Lao PDR; outside Laos: USGS OFR 97-470-F, faded)

- Q — Alluvium (Mekong and Sekong rivers)
- Qβ — Alkaline basalt
- Mz_3 — Riverine sandstones, evaporites
- Mz_2 — Marine sandstones, coal
- Mz_1 — Marine clastics, rhyolite, dacite, tuff
- Pz_3 — Upper Paleozoic sandstone, shale, limestone, volcanics
- Pz_2 — Middle Paleozoic mudrock, sandstone, limestone, volcanics
- Pz_1 — Lower Paleozoic mudrock, sandstone, wacke, volcanics
- γ — Granitoids
- PR — Proterozoic gneiss, schist

Other features

- In situ basalt flow
- Basalt clasts in diamicton (conglomerate test)
- Anomalous corestone (ex situ)
- Bouguer gravity anomaly (Sieh et al., 2020)
- Geologic crater outline (Sieh et al., 2020)
- Faults
- Rivers
- Laos border
- Towns
